Education

International Max Planck Research School - Heidelberg (IMPRS-HD)

Natural Sciences Ph.D. in Astrophysics

2019 - Present

"Accreting supermassive black holes in the first billion years: impact on their environments from parsecs to mega-parsecs"

The University of Texas at Austin

B.S. Astronomy & B.S. Physics, GPA:3.52

2015 - 2019

Corazonista School - Bogotá, Colombia

High School GPA:3.96

2007 - 2013

Previous Employment

The University of Texas at Austin (UT Austin)

Undergraduate Research Assistant

2016 - 2019

Search for galaxies at $z\sim$ 8-10 in the HST-BoRG survey under the supervision of Dr. Steven Finkelstein.

Max Planck Institute for Astronomy

Summer Research Intern

Summer 2018

Analyzed varying chemical abundances in nuclear star clusters with Dr. Nadine Neumayer and Dr. Nikolay Kacharov.

The National Radio Astronomy Observatory

Summer Research Intern

Summer 2017

Analyzed and mapped star formation in different areas of LIRG-type interacting galaxies under the supervision of Dr. Eric Murphy.

Research Projects

Spectral Energy Distribution of an Extreme Radio Quasar at z∼6

Dr. Eduardo Bañados

Max Planck Institute for Astronomy - Heidelberg

2019-present

Analyzed ALMA, NOEMA, and GMRT data to study the influence of jets in the host galaxy of an extreme radio-loud QSO at $z\sim6$ with evidence of extended radio lobes.

Finding Galaxies at z=8-10 with the Hubble Space Telescope

Dr. Steven Finkelstein

The University of Texas at Austin

2016-2019

Reduced HST imaging data, used Source Extractor and EAZY to perform photometric detections of galaxies at redshifts 8-10.

Investigating Chemical Abundances in Nuclear Star Clusters

Dr. Nadine Neumayer

Max Planck Institute for Astronomy

Summer 2018

Fit synthetic model spectra generated with MOOG to integrated light spectra from X-Shooter/VLT of the nuclear star clusters in six nearby galaxies.

Star formation tracing in Infrared-Bright Interacting Galaxies

Dr. Eric Murphy

The National Radio Astronomy Observatory

Summer 2017

Analyzed Mid-Infrared spectra to find PAH features, molecular hydrogen, and characteristic AGN compounds in eight LIRG interacting galaxies.

HETDEX (Hobby-Eberly Telescope Dark Energy Experiment) Dr. S. Finkelstein, Dr. K. Gebhardt

The University of Texas at Austin

Summer 2016

Tested the first spectrographs for the HETDEX project by running calibrations and using QFitsView to find Lyman-Alpha galaxies at redshifts 2-4.

Measuring the Color-Magnitude Diagram of M67

Dr. Michael Montgomery

The University of Texas at Austin

Spring 2016

Took images of M67 with the 0.8m telescope at McDonald observatory and performed PSF photometry to analyze Color-Magnitude diagrams.

Awards

Research Funding.

- European Southern Observatory Science Support Discretionary Fund (ESO-SSDF)

 Fall 2020

 Awarded to an ESO-Chile Fellow and a student visitor to complete a research project.
- IMPRS Fellowship for PhD at International Max Planck Research School Heidelberg Spring 2019

 Awarded every year to the most outstanding applicant to fund the full studies of the Ph.D. (4 years).
- Student Researcher Award, UT Office of Undergraduate Research

 Two fellowships awarded yearly to students in all areas of research to advance and showcase their projects.
- Undergraduate Research Fellowship, UT Office of Undergraduate Research
 Financial support for a research project conducted at the university.

 Spring 2018
- John W. Cox Endowment for the Advanced Studies in Astronomy

 Awarded to develop a research project at the Astronomy Department during the summer.

FRI Summer Research Fellowship Summer 2016 Awarded to a freshman student developing a summer research project at the College of Natural Sciences. Ralph Cutler Greene Endowed Scholarship, UT Astronomy Department Spring 2019 Awarded annually to an outstanding senior astronomy student entering their final year. General ISSS Financial Aid, UT International Office Fall 2016-Spring 2019 Awarded every year in cash assistance to international students who demonstrate financial need. Melvin J. Rieger Scholarship Fund in Physics, UT Physics Department Fall 2018-Spring 2019 Endowed scholarship awarded every academic year to an outstanding physics student. Jeannie Hunter Hackett Memorial Scholarship, PART - Austin Chapter Spring 2018 Awarded every year to an outstanding UT Austin junior or senior from Latin America. College of Natural Sciences out-of-state tuition waiver Fall 2016-Spring 2018 Waiver allowing non-resident of Texas students to pay one year of tuition at in-state rates. Thomas and Elizabeth Merner Scholarship, College of Natural Sciences Fall 2017-Spring 2018 Awarded to students in financial need and with strong academic performance Brian M. Welch Endowed Memorial Scholarship, College of Natural Sciences Fall 2016-Spring 2017 Offered to students in the College of Natural Sciences with a minimum 3.0 GPA. Abel Family Scholarships in Physics, UT Physics Department Fall 2016-Spring 2017 Awarded to outstanding students in the Physics Department Astronomy Departmental Honors, UT Austin. Spring 2019 Awarded to students presenting a written and oral thesis in astronomy and who have a GPA above 3.50. Graduate Physics Departmental Honors, UT Austin Spring 2019 Awarded to students graduating with a thesis in physical sciences and a GPA above 3.50. Graduate of Distinction in Research, College of Natural Sciences, UT Austin Spring 2019 Awarded to students who demonstrated excellence in the area of Research during their career. College of Natural Sciences Aspire Professor's Choice Awards Spring 2018 Awarded every year to honor excellent Black and LatinX students nominated by their professors. College of Natural Sciences Aspire Research Excellence Award Spring 2017 Awarded every year to honor the research accomplishments of Black and LatinX students. Honors in IV Colombian Astronomy Olympiad 2013 Received 4th place at the national competition and was selected to participate in the Latin American Olympiad. Bronze Medal in V Latin American Olympiad of Astronomy and Astronautics 2013 Awarded every year to students from Latin America participating in this competition. High School Valedictorian, Corazonista School Bogotá 2013 Awarded to one graduating student with the best academic record during the periods of 6th to 11th grades. Research Skills Research Classes... **AST 376: Observational Methods in Astronomy** Dr. Finkelstein, Dr. Kraus Used the 0.9m and 2.7m telescopes at McDonald Observatory to obtain and Fall 2018 analyze data for projects in different areas of astronomy. AST 210K: FRI-White Dwarfs Dr. Michael Montgomery Gained experience analyzing light curves of white dwarfs using Spring 2016 Fourier transforms, and MESA software for simulations of stellar evolution. AST 376R: A Practical Introduction to Research Dr. Shardha Jogee Learned to use the Linux/Mac OSX operating systems, used IRAF/PyRAF and DS9 Fall 2015 software for analysis of nearby galaxies with different morphologies. Software and Programming Skills. o Use of LATEX and programming experience with the Interactive Data Language (IDL), Python, and Mathematica for array manipulations, reading multi-dimensional catalogs, statistical analyses, and plotting. Reduction and analysis of interferometry data with GILDAS and CASA.

o Application of the EAZY program "Easy and Accurate Z(photometric redshifts) from Yale" to find

o Performance of photometry in images using Source Extractor.

photometric redshifts of galaxies.

- Utilization of Software CUBISM (Cube Builder for IRS Spectral Mapping) and SMART (Spectroscopy Modeling Analysis and Reduction Tool) to reduce and analyze Mid-Infrared spectra from galaxies.
- Use of the code **MOOG** to generate synthetic spectra for analyzing the chemical composition of stars.

Telescope Experience

Observing Proposals Led.

o James Webb Space Telescope (JWST) Cycle 1 GO (Rojas-Ruiz Co-PI)

"Spectroscopic Confirmation and Characterization of Bright Galaxies at $z\sim9$ ". Awarded 18.2 hours with NIRSpec/Fixed slit from the JWST TAC.

Very Large Array (VLA) (Rojas-Ruiz PI)

"Constraining the Synchrotron Lifetime of an Extreme Radio Quasar at Redshift 6". Awarded 5.00 hours at Priority A from the NRAO TAC.

Observing time.....

- The MPG/ESO 2.2m Telescope, La Silla Observatory.
- Keck 1 Telescope with the MOSFIRE spectrograph, W.M Keck Observatory.
- o The 2.7m, 0.8m, and 0.9m telescopes at McDonald Observatory.
- The Mayall 4-meter telescope at Kitt Peak National Observatory.
- o The 40-ft radio telescope at Green Bank Observatory.

Work with data from

- Hubble Space Telescope data (WFC3/UVIS and WFC3/IR Instruments.)
- o Spitzer Space Telescope IRS data.
- o VLT X-Shooter integrated light spectral data.
- NOEMA and ALMA interferometry data.

Teaching Experience

Heidelberg University, Germany

Tutor of the class 'Introduction to Astronomy and Astrophysics'

Winter 2021

Prepared classes of additional material on topics of Galactic and Extragalactic Astronomy. Specifically presented research on nuclear star clusters, dwarf galaxies and Dark Matter, galaxy clusters and lensing, and galaxies and quasars in the Epoch of Reionization. Also helped students reviewing and clarifying the homework exercises.

Mentoring Program for Future Colombian Astronomers

Red de Estudiantes Colombianos de Astronomía (RECA)

2020 - 2021

Mentored students in pursuit of doctoral education in Astronomy overseas. Helped them prepare for the TOEFL English test, guided application materials, gathered funding resources and supported the student until successful acceptance to high-quality astronomy programs in Europe. https://recaastronomia.wixsite.com/website-5/mentores

Heidelberg University, Germany

Tutor of Advanced Lab F36: 'Wavefront analysis with a Shack-Hartmann wavefront sensor.' Summer 2020 Prepared short quizzes for the preparation of the lab, instructed and graded students on the development of the experiment.

The University of Texas at Austin

Undergraduate Learning Assistant of "AST 301: Introduction to Astronomy" Fall 2016

Collaborated on preparing activities to teach this class targeted for non-science majors and helped them prepare for exams

Service to the Community

| 0 | Referee for the Astrophysical Journal | 2021 |
|---|---|------|
| 0 | Committee Organizer of the Network of Colombian Astronomy Students (Red Estudiantes Colombianos Astronomía - RECA) https://recaastronomia.wixsite.com/website-5 | 2021 |
| 0 | Leader of RECA - Education Node, Colombia | 2021 |

University Involvement

| 0 | Student advisor of the Texas Institute for Discovery Education in Science (TIDES) Board | 2017-2019 |
|---|---|-----------|
| 0 | Astronomy Students Association, UT elected Webmaster | 2016-2017 |
| 0 | Student in the Freshman Research Initiative stream "Exploring the Universe with White Dwarfs" | ' 2016 |
| 0 | Undergraduate Women in Physics, UT chapter member | 2015-2019 |
| 0 | Society of Physics Students, UT chapter member | 2015 |

Extracurricular Activities

| Co-Organizer of Astronomy on Tap Bogotá, Colombia | 2017-2018 |
|--|--------------|
| Stargazing with Newtonian telescope | 2007-present |
| ^o Build Hydraulic Rockets | 3 yrs |
| Outreach volunteer of the Colombian Astronomy Association "ACDA" | 4 yrs |
| Salsa dancing | 15 yrs |
| OPlay tennis and soccer | 10 yrs |
| O Play soccer | 2 yrs |
| I anguages: Spanish (Native), English (proficient), and German (A2.2 level). | |

Languages: Spanish (Native), English (proficient), and German (A2.2 level).
